

Unlimited **open access** publishing for researchers at institutions in Australia and New Zealand

The Council of Australian University Librarians' and IOP Publishing have signed a transformative agreement on behalf of participating universities in Australia and New Zealand to facilitate open access publishing.

Your library is participating in this agreement, meaning that research accepted for publication by corresponding authors at your institution will be published on an open access basis.

Key benefits:

- Unlimited open access publications from 2023–2025
- All corresponding authors from participating member institutions are covered (see list overleaf)
- Includes more than 70 journals
- Letters, papers, reviews and special issue articles are all eligible
- Articles will be published under a CC-BY licence at no cost to you*

Just follow these simple steps when submitting your next article:

- 1 At submission**

The corresponding author must be affiliated with a participating member institution. When you submit your paper please supply your affiliation clearly in the article submission form and in the article itself.
- 2 Identification**

If your article is identified as eligible you will be notified during the peer-review process or shortly after acceptance, and your paper will automatically be opted in to open access. You'll be asked to agree to the CC-BY open access licence.
- 3 Acceptance and publication**

Your paper will be published open access under a CC-BY licence at no cost to you*. You can share it as you wish and the article will comply with funder mandates.

*For a small number of journals there may be additional costs for colour images or page charges, which remain payable by the corresponding author.

Your research may be eligible for funding if the corresponding author is affiliated to the following participating member institutions:

AUSTRALIA

- Australian National University
- Australian Nuclear Science and Technology Organisation
- Commonwealth Scientific and Industrial Research Organisation
- Curtin University
- Deakin University
- Flinders University
- Griffith University
- La Trobe University
- Macquarie University
- Monash University
- Murdoch University
- Queensland University of Technology
- RMIT University
- Swinburne University of Technology
- University of Adelaide

- University of Melbourne
- University of New South Wales
- University of Newcastle
- University of Queensland
- University of South Australia
- University of Southern Queensland
- University of Sydney
- University of Tasmania
- University of Wollongong
- Western Sydney University

NEW ZEALAND

- Auckland University of Technology
- University of Auckland
- University of Canterbury
- University of Otago
- University of Waikato
- Victoria University of Wellington

Why publish open access with us?

We understand the time and effort you put into your research. Publishing open access will mean your work will be immediately available to everyone globally, allowing you to maximize its discoverability and impact.

Get greater exposure

81%

Article downloads are 81% higher in favour of OA articles

Achieve a higher impact

31%

Citations for OA articles are 31% higher on average than non-OA articles

Be the word on the street

27%

Altmetric scores are 27% higher for OA articles than non-OA articles
