

## How to Access Journal Articles when Readings Online is Unavailable

If the LMS or Readings Online is unavailable for maintenance, you can still access journal articles that are available electronically from your reading list via Discovery.

Note – this only applies for journal articles that Readings Online links via Discovery and not articles that are available as a pdf on Readings Online. PDFs will need to be downloaded before the LMS is shutdwn

### Accessing Journal Articles via Discovery

1. Go to the Library homepage - <http://library.unimelb.edu.au/> and enter the **journal article title** in the Discovery search box.

2. Locate the journal article in the search results. Click on the PDF Full Text link to open a pdf of the journal article.
